DETAILED ACTION

Election/Restrictions

Applicant's election of claims 1-3 in the reply filed on 2/2/06 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-3 are rejected under 35 U.S.C. 102(e) as being anticipated by Wenski et al. (US 6,458,688).

Wenski et al discloses a polished semiconductor wafer with a front surface, a back surface and a peripheral are of the semiconductor wafer having a flatness values of less than or equal to 0.13 micron which is within the claimed range of 0.5 micron or less (see figs. 1-4 and related text).

With respect to claim 3, see col. 3, lines 57-60 for the deposition of epitaxial layer on the front surface.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Wenski et al.'360, and Wenski et al.'762 also discloses the surface flatness of the polished wafer of 0.5 micron or less.
